trip, first car etc...*

Appliances and gadgets from my life

Special memories and photographs

War Service

Special memories and photographs

Hurdles and heartbreaks

Although hurdles and heartbreaks are not usually discussed in reminiscence, it can be helpful for carers to understand painful aspects of a person's life so they can provide reassurance and comfort should the topics arise or the person become distressed. Similarly, should pain or distress arise from any area discussed in making this book, after responding to the person with comfort and support, note the event/ topic/ situation and alert others that it evoked a painful memory. Then, avoid bringing it up again.
