Role:			

Thank you for taking the time to complete this form. Your needs will be assessed along with other team members and will be considered in a review our organisational training strategy. You will be advised of the outcome.

Your questions answered

How much will it cost?

- There cost depends on many things including if you are eligible for funding. You can find more information on our website or Daisy Learning staff are happy to help.

Would I be eligible for funding?

- Government incentives are available for some accredited training, to encourage eligible students to develop skills in areas of demand. The Community Services sector including ageing and disability qualifications is top of the list.
- More information is on our website <https://daisylearning.com.au/funding-options/>.
- Daisy Learning staff would be happy to assess funding eligibility with you.

I already hold some qualifications and work in the industry. Does that make a difference to the amount of training I will have to do?

- A **credit transfer** can be applied to a new qualification when the candidate holds the exact same unit in a different qualification.
- If you hold a qualification between 5-10 years old, you may be a candidate for **GAP training** for the differences to the current qualification. We would have to look at what the units in your existing qualification to see how it maps across to the current qualification.
- **RPL –(Recognition of Prior Learning)** may also be an option if you have 3 or more years of **recent** experience working in the community services sector in a role where you would have gained knowledge and practical skills required in the qualification.
